

CONNECTOR RETAINING CLAMPS FOR IEC 60320 (320) C-13, C-14, C-15, C-16, C-17, C-18, C-19, C-20 CORD SETS, PLUGS AND CONNECTORS

“Clamp” and “Swivel Bale” connector retaining clamps are designed to secure IEC 60320 (320) cord sets, plugs and connectors to mating inlets and outlets.

They are available in various sizes and compatible with many of our IEC 60320 (320) cord sets, plugs and connectors. The “Clamp” type can be installed on O.E.M. equipment before or after the equipment is manufactured depending on how the mating inlets / outlets are mounted. The “Swivel Bale” type are intended to be installed when the O.E.M. equipment is manufactured.

NOTE: “Clamp” types require the clamping screw to be released before the cord set, plug or connector can be removed. “Swivel Bale” type pivots at the top of the mounting posts for quick release of mating cord set, plug or connector.
